

HEALTH OUTREACH TO THE MIDDLE EAST

Journey of Hope and Healing

Transforming Lives

The Spirit of Care & Compassion

In the very cradle of civilization, where the Great Physician, Jesus Christ delivered the purest form of Healing Love, HOME endeavors to follow in His footsteps. With more than 20 clinics, mobile clinics and hospitals, from Beirut to Baghdad, from Mauritania to Cairo, from the Arabian Gulf to North Africa and the

Atlantic Ocean, our network serves as a living testament to our mission. Within these sanctuaries of care, our healthcare professionals, transcend mere medical practice to become conduits of hope, nurturing body and soul.

We invite you to join us on this journey of transformative care, where each life touched is a story of hope reborn.

Issam Raad, MD, FACP, FIDSA, FSHEA
President

Healing with Purpose

Health Outreach to the Middle East (**H.O.M.E.**) is a Christian, non-denominational organization that exists to offer physical and spiritual healing to people in need in the Middle East by providing medical care and education.

Our Mission at Heart

- **Ministry & Medical Missions:** To provide physical healing by reaching the suffering and sharing spiritual healing with all in a culturally sensitive manner.
- **Medical and Nursing Training:** To sponsor medical trainees under accredited US programs and provide scholarship for nurses and other healthcare workers to receive higher degrees and training.
- **Clinical Excellence:** To establish clinical excellence centers to develop and enhance excellence programs that will be available to everyone in the community.

HOME's Enduring Impact

Boundless Care Across Borders

Our impact is not measured in numbers, but in lives transformed and hope reignited in hearts. Through our network of clinics and hospitals, emergency responses to disasters, and unwavering commitment to serving the underserved, HOME embodies the spirit of Christ's healing love.

Our journey is marked by boundless care across borders transcending geographical and cultural boundaries. In fourteen countries, we extend our hands and hearts to the underserved, underprivileged, and the unreachable.

Our clinics and mobile health units travel far and wide, turning every encounter into an opportunity for healing and compassion. Each patient we meet, each life we touch, becomes part of a larger story – a testament to the power of unconditional love and care.

Healing Amidst Ruins

In moments of crisis, HOME emerges as a sanctuary of hope. From the devastating Beirut port explosion to the turmoil in the Holy Land, our response goes beyond mere medical intervention. Amidst the rubble of earthquakes, our efforts bring healing in its most profound form – not just treating wounds, but also nurturing hope and restoring spirits. In these places where despair seems overwhelming, HOME stands as a reminder that love and compassion can still flourish.

Medical Excellence

HOME HOSPITAL & PHARMACY - EGYPT

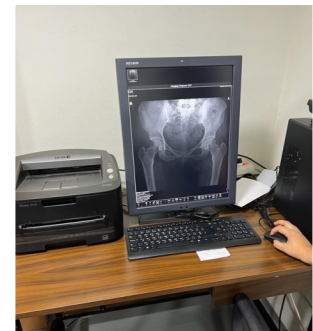

The HOME Teaching Hospital and Training Medical Center in Cairo will revolutionize compassionate healthcare, blending advanced services, education, and outreach.

As a Medical, Training, and Sending hospital, it will deliver exceptional healthcare, cultivate medical expertise, and deploy medical missionaries, all while providing state-of-the-art treatments in a nurturing environment. The pharmacy is open and serving the community until we get the final licenses for the hospital.

HOME Medical Center - Lebanon

The HOME Medical Center in Beirut, accredited as a Primary Care Center, continues to expand and modernize. With new medical equipment and technology, it offers comprehensive treatment and diagnostic services. This center also serves as a vital educational hub for medical treatment and professional training.

HOME Hospitals in Mauritania

Embracing its foundational legacy since 2004, HOME Hospital in Chinguetti is advancing into a new chapter of medical service and educational excellence. With the Community Hospital of Ouadane enhancing our reach in Mauritania, and a state-of-the-art operating suite elevating care, HOME is steadfast in our mission to provide accessible, Christian healthcare. The hospital's growth, coupled with innovative training programs for medical professionals, ensures a sustainable future of health for the most remote communities.

Education

HOME's dedication to healthcare education is exemplified through diverse and impactful training programs:

Nurse Aide Certificate:

Leveraging an American curriculum translated into Arabic and taught by the University of Cairo educators, this program has over 200 graduates since 2013, with scholarships for advanced nursing degrees.

Healthcare Leadership Certificate:

A 12-hour graduate-level program from Azusa Pacific University School of Nursing, offering management and leadership training to RNs via distance learning.

Postgraduate Diploma in Family Medicine:

In partnership with Loma Linda University School of Medicine and ICMDA, this two-year program blends online instruction with clinical training, addressing the primary care physician shortage in Egypt.

Certificate of Infection Control:

Through the Certification Board of Infection Control and Epidemiology, this program prepares students for the CIC exam, focusing on infection control and epidemiology.

Medical Student Residency Program:

Provides practical residency experiences at the HOME Medical Center, offering extensive training across various medical specialties.

Medical Disciples Program:

A unique initiative fostering a blend of professional medical training with spiritual development, creating a community of medical professionals guided by Christian principles and compassionate care.

The upcoming HOME Hospital in Cairo will enhance these educational endeavors, serving not only as a hub for medical treatment and professional training but also as a launchpad for sending Christ-centric developed talent on medical missions, all enriched by partnerships with U.S. institutions.

Mobile Clinics

HOME's network of mobile clinics extends across countries like Egypt, Lebanon, and Iraq, bringing vital medical care to underserved communities. These clinics, strategically positioned to reach areas with limited healthcare access, embody our commitment to Christ's teachings of compassion and service delivering healthcare to the doorsteps.

Medical Missions

HOME's medical missions recruit over 50 volunteer physicians and healthcare professionals each year, embarking on a faith-driven journey to deliver caring compassion in villages. These missions extend beyond physical healing, uplifting spirits and sharing God's love. Motivated by the lives touched, we are steadfast in our mission of hope and healing.

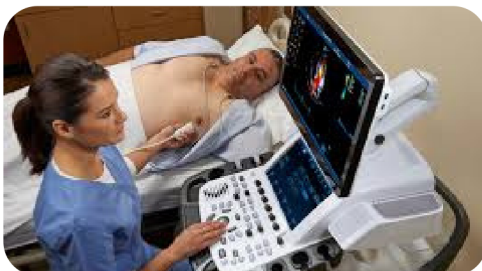

Embracing Innovation

Medical Media Ministry

H.O.M.E. developed and produced over 180 episodes of LIFE & MEDICINE as a part of an extensive medical media ministry that includes a series of spiritual messages alongside medical education and that reaches and addresses millions of people through the Arabic satellite TV stations.

Telemedicine

HOME's Telemedicine Program utilizes our global medical network to foster a bridge of knowledge, offering expert remote guidance to Middle Eastern healthcare professionals and supporting our mission of Christ-centric healthcare for underserved communities.

Leading with Vision:

A Future Filled with Healing and Hope

As we look towards the horizon, HOME envisions a future where every individual in the Middle East has access to quality healthcare and experiences the love and compassion of Christ through our services. Our vision extends beyond the present, aiming to deepen our impact through the HOME Hospital in Cairo, continue to expand our services at the HOME Medical Center in Beirut, broaden the reach of our mobile clinics, and enhance our educational programs. We see a future where our medical missions and training initiatives not only heal bodies but also nurture souls, fostering a community of healthcare professionals who serve with a Christ-centric heart. In this journey ahead, HOME commits to being a symbol of healing, and a testament to unwavering faith and service.

An Invitation To Transform Lives

How you can help

- Pray for our different projects
- Volunteer your time by attending one of our mission trips
- Spend a month or two in one of our clinics/hospitals
- Join our mailing list
- Donate

We invite you to join hands with HOME in our mission to transform lives across the Middle East. Your partnership and contributions are pivotal in sustaining and expanding our array of services – from medical missions and mobile clinics to educational endeavors and the upcoming HOME Hospital. Your support can help us amplify our outreach, equip our facilities with the latest technologies, and empower more healthcare professionals with Christ-centric training.

Together, we can create a lasting impact, not just in healing the body but also in uplifting the spirit. Let's unite in this noble cause to bring hope and healing to those who need it most.
